# Lubricants

## reel accessories

### SPRAY 6 EN 1

Kalikunnan 6-in-1 multipurpose spray is essential for maintenance and repair of our fishing tackle. Penetrates deeply lubricating and releasing screws, bearings, threaded pieces, racks, etc. Contains ecological, non-flammable propellant gas (CO<sub>2</sub>). Eliminates friction and noise. Clean up unwanted residue. It displaces moisture. Protects against corrosion. Suitable for marine protection.

ml	CODE
500	26976

### SPRAY SILICONA

Kalikunnan SILICONE spray is a lubricant for fishing tackle. It lubricates and protect against rust. Spraying it on reel line and rings, we get longer and smooths casts. It also protects them for greater durability. Suitable for metals, graphite, plastic, rubbers, nylon, vinyl...

ml	CODE
400	59015

### SPRAY PTFE

Kalikunnan PTFE (Polytetrafluoroethylene) spray is a special lubricant for our fishing tackle. This dry PTFE-based lubricant creates a film that reduces friction and prevents rust. After application, it dries quickly, leaving a dry, non-oily layer that does not attract dirt, dust or sand. Best for metal, graphite, plastic, rubber even wood. Use on rod joints, zippers, reel pickups... it lubricates, protects and prevents blocking.

ml	CODE
400	96396

**Sahara**

## NEW CLASSIC VEST

This fishing vest is made of a strong and durable material, ideal to withstand outdoor conditions. This vest features multiple pockets of different sizes, strategically placed to provide easy access to the accessories needed during a fishing trip. The front pockets, both top and bottom, are perfect for storing tackle boxes, hooks, lines and other accessories. In addition, some parts are made with mesh, allowing ventilation and preventing heat build-up. A remarkable feature of this vest is a water bottle holder built into the side, which is held in place by a special holder, ensuring that the angler can stay hydrated without the need to carry an additional backpack. The front zipper allows the vest to be put on and taken off with ease, while its loose fit ensures comfort and freedom of movement.

**NEW**  
**COASTAL VEST**

This fishing vest is designed to provide comfort, functionality and safety to fishermen. Manufactured with high quality materials, it ensures durability and resistance in adverse conditions, its ergonomic design allows freedom of movement and quick access to the necessary accessories.

CODE  
**98372**

**TECHNICAL CHARACTERISTICS**

**Exterior**

High density nylon, water and splash resistant, provides protection against moisture.

**Interior**

Polyester mesh lining facilitates ventilation and prevents sweat build-up.

**Front Pockets**

Equipped with two pockets for tools such as pliers, scissors, Fish Grip, etc., with safety straps to prevent loss.

**Upper Pockets**

Additional chest pockets allow quick access to small items such as hook packs, staples and lines.

**Lower Pockets**

Two large, heavy-duty zippered pockets designed for storage of lure boxes, tools and essential accessories.

**Center Zipper**

Heavy-duty front zipper for secure closure and easy access.

**Side Adjustments**

Adjustable nylon straps on the sides allow for customized fit, improving comfort and stability during **prolonged use**.

**Reflective stripes**

Reflective bands on shoulders and back, increase visibility in low light conditions, improving safety.

**Padded Back**

High-density EVA foam padding on the back provides greater comfort during long fishing trips.

**Adjustable shoulder straps**

Adjustable and padded shoulder straps guarantee a perfect and comfortable fit, distributing the weight evenly. It has a multitude of "D" rings in different parts of the vest to attach tools and accessories.

**NEW**  
**PANTALON DRY**

Our softshell pants are the perfect choice for those looking for comfort, protection and functionality. Designed with high quality materials, these pants offer excellent wind and water resistance, keeping you dry and comfortable in a variety of weather conditions. Made with a softshell fabric, they provide an effective barrier against wind and light rain. The ergonomic cut on the pre-shaped knees allows total freedom of movement. Practical pockets equipped with strong, durable zippers ensure secure closure.

**NEW**  
**PANTALON DRY**  
**PLUS BLACK**

These sports pants combine comfort and functionality for long days outdoors. The lightweight and breathable material allows for optimal ventilation, helping to keep you cool even in hot conditions. The fabric is also quick-drying, making it ideal for activities in aquatic environments, as it quickly eliminates moisture in case of splashes or contact with water.

The elastic waistband provides a secure fit, and the adjustable drawstrings allow you to customize the tension to suit your preferences, ensuring the pants stay in place when bending, moving, or casting. Additionally, the ergonomic cut and freedom of movement offered by the design make it easier to perform essential maneuvers, such as casting lures or handling fishing gear.

The pants also feature side pockets with secure closures, perfect for carrying small fishing tools, lures, or even a mobile phone, keeping them within reach without compromising mobility.

- ACTIVE TEMPERATURE CONTROL.
- ADVANCED MATERIALS WICK AWAY SWEAT AND PROMOTE BREATHABILITY FOR OPTIMAL COMFORT DURING HIGH-PERFORMANCE ACTIVITIES.

**new technical clothing UPF**

**NEW SPRAY JACKET**

Windbreaker designed specifically for anglers looking for effective wind protection without compromising comfort. This lightweight windbreaker provides a barrier against inclement weather without being completely waterproof, making it ideal for moderate climates. Made with a high-density technical fabric that effectively blocks wind, keeping you warm during your fishing sessions. Integrated adjustable hood to keep you comfortable and protected. High-quality central zipper ensures a secure closure, keeping the wind out. Ergonomic design allows ample freedom of movement, essential for all fishing activities without restrictions.

**SHIRO**

High performance Japanese monofilament specially designed and manufactured for fishermen who require fine lines to reach the maximum casting distance.

**X-RED**

X-RED is a high quality copolymer monofilament and super resistant to abrasion. Because material combinations, we managed to create a easy handle monofilament, high tensile strength and smooth going out even through the rings. Exceptional abrasion resistance keeps the line in top casting condition even after many days of fishing.

**NEW SPIN WIND**

SPIN WIND is a monofilament line crafted using a revolutionary formula that blends different polymers, resulting in a line that is exceptionally resistant to abrasion and traction. Its ultra-smooth surface ensures longer casts, making it the ideal choice for discerning anglers who demand the best.

## KENDO X

This product passes through special strengthened processing, the molecular weight is extremely high, enhances the pulling force value 2 times as the ordinary nylon line. Simultaneously, surpasses high tensile strength, durable, it has been the best choice for those fisherman to use because it's ultra valve of ideally economy.

## FLUORINE LINE

FLUORINE fishing line is a new monofilament generation. It has an exceptional invisibility and strength features. It mixes the best characteristics of nylon and fluorocarbon. On the one hand, it has the knot resistant and tensile strength of nylon, and the underwater transparency and abrasion resistance of fluorocarbon. High recommended for tying hooks and rig assembly.

Thick mm	Resist. kg.	Resist. Lab. kg / lbs	Largo m.	CODE

## TYPHOON FLUOROCARBON

Fluorocarbon monofilament 100% high performance and quality. With a refraction degree very similar to water, it makes it almost invisible under water. Its great resistance to knot, abrasion and U.V rays make it a SUPER LINE. Ideal for making rigs and hook line.

## NEW SIZES AMNESIA

This versatile line works great as a running line behind a shooting head for salmon and steelhead fishing. You can also use a small length as a butt section between a floating line and a leader. And the highly visible red color allows it to work as a built-in strike indicator when nymphing. Amnesia loses its monofilament memory when gives a good stretch.

**MINI-B (F)**

This lure is designed according to the size that can be attacked easily by the predators. It can be used for long casting fishing. When in the water surface, the gravity is in the front of the lure head, so it can produce quick shaking activities. This lure is a little minnow, it is suitable at the fish pond when fishing in the winter.

**NEW CHARLY**

Jig specially designed for fishing techniques such as jig-casting, spinning and Rock Fishing. Its structure presents an asymmetrical weight distribution, optimized to reach extremely long casting distances, making it ideal for situations that require precision and range. The effectiveness of the jig is maximized by the application of a twitching action, which mimics the erratic movements of wounded prey, attracting predators and increasing the chances of capture.

**NEW INCHIKU**

The Inchiku stand out for their bright holographic colors that flash during fishing action, making them highly visible underwater and extremely attractive to predators. Their integrated pulpit design makes them even more effective. These lures are very versatile and have the ability to attract a wide variety of fish species, making them an invaluable asset to any angler. To get the most out of your Inchiku lures, use a steady retrieve with alternating jerks. This technique creates an up and down motion that activates the fish's predatory instincts.

**NEW TENYA**

The Tenya technique was conceived and developed in Japan. The Tenya is a sinker on which you can usually hook a shrimp or strips of squid or cuttlefish. It consists of a plumbed head with a fixed hook where the bait is placed and an auxiliary hook that is placed in the head of the shrimp. The best technique is to imitate the natural movement of the bait. Slowly work the Tenya along the bottom with a linear retrieve, interrupted by occasional pauses. This realistic presentation effectively attracts fish accustomed to feeding on the seabed. Although Tenya fishing is often practiced from boats, it can also be successful from the shore.

**NEW YUMIZUNO**

The Yumizuno is an iconic Japanese fishing lure, meticulously crafted for trolling. Its distinctive spoon-shaped design causes it to vibrate and shimmer enticingly in the water, attracting a wide variety of fish.

## SQUID SNAP

Unlike other swivels with safety pins, this one has the safety pin placed on one of the arms of one of the rings. Allow this to rotate on the turnstile to avoid messes. Very suitable for special setups for squid and cuttlefish. The clip allows the jibions to be exchanged quickly.

## NEW PROTECTOR NET

Protect your fishing rods with the PROTECTOR NET cover. It is durable, strong, and offers excellent abrasion resistance, making it ideal for protecting your rods from scratches and other damage. Its design makes it easy to put on and take off, and it fits perfectly around all the rod's guides. The length is adjustable by rolling the opening up or down, making it perfect for storing and transporting rods without tangles. Made from nylon mesh, it is the perfect solution to keep your rods organized, protected, and in optimal condition.

### NEW FUNDA EXTREM WORLD CUP

The Extreme World Cup case has been designed at the request of our Surfcasting ProStaffs. The concept was to create a high capacity competition case that could carry more than 6 surfcasting rods and also have the capacity to carry several hangers, rod holders or tripods.

It is made of nylon and PVC and has an interior compartment and another pocket on the outside. The interior has a padded band on each side to secure the rods. The exterior compartment is open and has an interior PVC reinforcement on the part so that it does not get punctured by the tips of hangers, holders, tripods, etc. It also has adjustable straps to secure all these accessories and keep them from moving. With carrying strap and double-wheel zipper.

## BIG FEET XXL TRAY

**KALI KUNNAN**

Aluminum trolley and stainless steel frame. High resistance and durability, to transport our fishing equipment. It has large special balloon wheels that will help us move easily through the sand on the beach. The segment by which we pull the trolley can be adjusted in height for a more comfortable transport and a more compact folding. In addition, it has a textured grip in EVA rubber for a more secure and comfortable grip. Some parts of the trolley are wrapped in EVA rubber tubes to protect them from bumps and scratches, and to prevent the sliding of our fishing equipment.

**NEW**  
**SMART LANDING NET**

The SMART landing net from the Mythic series is made of high-strength aluminum alloy, providing both durability and lightweight design. Next to the head, there is a handle that allows you to lift the fish without having to pull on the handle. The mesh is rubberized to reduce snags with hooks and lures and to avoid damaging the fish scales. It is resistant to abrasion and deterioration from saltwater, ensuring a long lifespan. The telescopic handle features a system that allows for more compact folding, as well as an ergonomic, non-slip rubber grip.

**NEW**  
**MASTER LANDING NET**

The MASTER landing net punch of the Mythic series is designed with the highest technology and an ergonomic and robust design. It is made of high resistance aluminum alloy, which provides durability and lightness at the same time. Next to the head, it has a handle that allows the fish to be lifted without having to pull the handle and it is also foldable. The mesh is rubberized to reduce snagging with hooks and jigs and to avoid damaging the fish scales. It is resistant to abrasion and saltwater damage, ensuring a long service life. Telescopic and non-slip handle, which facilitates its extension and secure grip. The telescopic handle has a secure locking system to keep the landing net in position during the capture as well as a non-slip ergonomic rubber grip.

**NEW**  
**TITAN XXL LANDING NET**

The Mythic TITAN XXL landing net is designed with the highest technology and superior quality materials to satisfy the needs of the most demanding anglers. With an ergonomic and sturdy design, this rod rig guarantees an efficient and comfortable fishing experience. It is made of high-strength aluminum alloy, which provides durability and lightness at the same time. The XXL size of the head allows you to catch large fish without difficulty. Next to the head, it has a handle that allows you to lift the fish without having to pull the handle and it is also foldable. The mesh is rubberized to reduce snagging with hooks and jigs and to avoid damaging the fish scales. It is resistant to abrasion and saltwater damage,

ensuring a long service life. It is equipped with a telescopic and non-slip handle, which facilitates its extension and secure grip even in wet conditions. The telescopic handle is equipped with a secure locking system to keep the landing net in position during capture and an ergonomic non-slip rubber grip.

L	41 x 10 x 5,5	75457

## HYDROBAG LEADERS - BAJOS

Multipurpose case double zipper with transparent lid to keep all type of fishing accessories. It includes a foam base with grooves and 48 circular winders.

cm	35 x 23 x 10
CODE	25597

## HYDROBAG BOBINE

Multipurpose case double zipper with transparent lid to keep all type of fishing accessories. This is ideal to bring your reel spools.

6 Units UMS

cm	35 x 23 x 10
CODE	97192

**NEW**  
**HYDRO COOLER O<sub>2</sub>**

cm	30 x 20 x 21
CODE	29239

The Hydrobag Cooler O2 is the perfect solution to keep your catch cool and organized during your fishing trips. With an innovative and functional design, this cooler offers a combination of efficient insulation and practical storage. It includes a rigid inner bucket for easy cleaning. It is insulated to keep the interior cooler for longer, protecting your catch, bait or drinks from external heat. It has a pocket for oxygenator or accessories and another to keep your fishing tools organized and easily accessible. Equipped with an adjustable, heavy-duty strap for easy carrying and a high-quality zipper that ensures smooth opening and closing.

**HYDROBAG**  
**SEAT FOLD**

cm	45 x 26 x 27
CODE	43080

Semi-rigid bag with rigid top to transport fishing material. It has a large inner pocket and a small Mesh pocket on the front plus a special pocket for scissors or pliers.

The lid closes with zipper in addition to a Velcro closure in case we do not want to be opening and closing the zipper every time we take something from the inside pocket.

In one of the sides it has two rod holders that allow to carry the rods while we move or leave the rod for example to change the lure, make a knot, etc... It has a shoulder strap and handles to transport it comfortably.

**CUBO CON REJILLA Y CABO**

Folding mesh bucket. Lets keep the fish in water. Top cover opening. Om cape with winder.

Size	Ø 30 x 25cm Cabo 8m
