NEW SOLSTICE SURF

MODULE SURF

## NEW SOLSTICE SURF

A rod designed for long-distance surfcasting, made with High Quality Carbon. It has a great power-to-weight ratio and a hybrid tip for better bite detection. It's equipped with Fuji LR O tangle-free guides and has reflective tape on the tip for night visibility. The rod also has an ergonomic, non-slip grip for a more secure cast

- HQ Carbon metal reelseat
- Hybrid tip · Fuji LR O guides

## NEW HELIX SURF

This rod was designed to be powerful, precise, and sensitive. Its High Modulus carbon blank allows for long casts with any technique. The hybrid tip helps detect even the smallest bites. It's equipped with Fuji K FazLite tangle-free guides and has an anti-slip varnish near the joints for easy assembly and disassembly. The tip also has reflective tape for better visibility at night and an ergonomic, non-slip grip.

NEW SILICON SURF

NEW LONG SHOT SURF

## NEW SILICON SURF

A surfcasting rod with an incredible power-to-weight ratio. Its High Modulus carbon construction makes it powerful yet surprisingly light. It features Fuji K Alconite guides and a Fuji DPS reel seat to balance the setup. The hybrid tip provides greater sensitivity to bites and has reflective tape for good visibility during night fishing. It also has an ergonomic, non-slip grip for a safer and more precise cast.

- HM Carbon
- Hybrid tip
- Ergonomic surf grip
- Fuji DPS screw graphite and metal reel seat
- Fuji K Alconite guides

## NEW LONGSHOT SURF

This three-section rod for long-distance surfcasting is built with High Modulus carbon, providing greater power and lightness. It's available in two versions, both with hybrid tips: one "TEST" model and one "TEAM" model. The tips have reflective tape for better visibility during night sessions. It's equipped with Fuji Alconite tangle-free guides and includes an ergonomic, non-slip grip for superior hold and control.

## NEW SHANGRILA TEAM IV

KALI KUNNAN

This rod was developed with an advanced architecture using a revolutionary carbon mesh that significantly increases tensile strength and structural stability. It's lightweight, reactive, and powerful due to a high-precision densification process and an optimized ratio of stiffness to flexibility. It features a new-generation carbon grip that reduces overall weight and adds a modern look. The rod comes in two versions: one with Fuji Low Rider SIC guides and one with Fuji K SIC guides, both with a tangle-free system. The TEAM hybrid tip provides extreme sensitivity for detecting subtle bites at long distances without sacrificing casting power.

- HM Carbon with multidirectional braid and TEAM hybrid tip

## reel accessories

### SPRAY 6 EN 1

Kalikunnan 6-in-1 multipurpose spray is essential for maintenance and repair of our fishing tackle. Penetrates deeply lubricating and releasing screws, bearings, threaded pieces, racks, etc. Contains ecological, non-flammable propellant gas (CO<sub>2</sub>). Eliminates friction and noise. Clean up unwanted residue. It displaces moisture. Protects against corrosion. Suitable for marine protection.

12 Units UMS

ml	CODE
500	26976

### SPRAY SILICONA

Kalikunnan SILICONE spray is a lubricant for fishing tackle. It lubricates and protect against rust. Spraying it on reel line and rings, we get longer and smooths casts. It also protects them for greater durability. Suitable for metals, graphite, plastic, rubbers, nylon, vinyl...

12 Units UMS

ml	CODE
400	59015

### SPRAY PTFE

Kalikunnan PTFE (Polytetrafluoroethylene) spray is a special lubricant for our fishing tackle. This dry PTFE-based lubricant creates a film that reduces friction and prevents rust. After application, it dries quickly, leaving a dry, non-oily layer that does not attract dirt, dust or sand. Best for metal, graphite, plastic, rubber even wood. Use on rod joints, zippers, reel pickups... it lubricates, protects and prevents blocking.

The Hakko Assists Jigs offer maximum reliability and efficiency in jig fishing. Built with high-strength carbon steel hooks, they ensure solid, secure hook-ups even against the toughest predators.

### Main features

- Professionally tied with chemically sharpened Hakko hooks for superior penetration.
- Reinforced, durable cord designed to withstand heavy strikes.
- Red binding with holographic fibers adding flash and lifelike movement to attract fish.
- Available in different sizes to match any jig and target species.

Ideal for jig casting, jigging, and slow jigging, these assists make your setup more attractive and effective, increasing strike rates on every cast.

## CLASSIC VEST

This fishing vest is made of a strong and durable material, ideal to withstand outdoor conditions.

This vest features multiple pockets of different sizes, strategically placed to provide easy access to the accessories needed during a fishing trip. The front pockets, both top and bottom, are perfect for storing tackle boxes, hooks, lines and other accessories. In addition, some parts are made with mesh, allowing ventilation and preventing heat build-up.

A remarkable feature of this vest is a water bottle holder built into the side, which is held in place by a special holder, ensuring that the angler can stay hydrated without the need to carry an additional backpack. The front zipper allows the vest to be put on and taken off with ease, while its loose fit ensures comfort and freedom of movement.

### TECHNICAL CHARACTERISTICS

#### Exterior

Made of water-resistant nylon, which protects the user from moisture and splashes.

#### Interior

Breathable mesh lining facilitates ventilation and prevents sweat build-up.

#### Front Pockets

Two large pockets with heavy-duty zippers, designed to store lure boxes and other essential accessories, and one additional pocket for tools such as pliers or scissors.

#### Mesh Pockets

Additional mesh chest pockets for quick access, with "D" rings for attaching tools and accessories.

#### Center Zipper

Sturdy front zipper for secure closure and easy donning of the vest.

#### Side Adjustments

Adjustable side straps to customize fit and ensure comfort during use.

#### Emergency Whistle

Built into one of the front straps for emergency situations.

#### Reflective Bands

Located on the shoulders and back for increased visibility in low light conditions.

#### Built-in Hood

A lightweight, adjustable hood for protection against rain and sun.

#### Padded Back

Additional padding on the back for comfort during long fishing trips.

## COASTAL VEST

This fishing vest is designed to provide comfort, functionality and safety to fishermen. Manufactured with high quality materials, it ensures durability and resistance in adverse conditions, its ergonomic design allows freedom of movement and quick access to the necessary accessories.

CODE

98372

### TECHNICAL CHARACTERISTICS

#### Exterior

High density nylon, water and splash resistant, provides protection against moisture.

#### Interior

Polyester mesh lining facilitates ventilation and prevents sweat build-up.

#### Front Pockets

Equipped with two pockets for tools such as pliers, scissors, Fish Grip, etc., with safety straps to prevent loss.

#### Upper Pockets

Additional chest pockets allow quick access to small items such as hook packs, staples and lines.

#### Lower Pockets

Two large, heavy-duty zippered pockets designed for storage of lure boxes, tools and essential accessories.

#### Center Zipper

Heavy-duty front zipper for secure closure and easy access.

#### Side Adjustments

Adjustable nylon straps on the sides allow for customized fit, improving comfort and stability during **prolonged use**.

#### Reflective stripes

Reflective bands on shoulders and back, increase visibility in low light conditions, improving safety.

#### Padded Back

High-density EVA foam padding on the back provides greater comfort during long fishing trips.

#### Adjustable shoulder straps

Adjustable and padded shoulder straps guarantee a perfect and comfortable fit, distributing the weight evenly. It has a multitude of "D" rings in different parts of the vest to attach tools and accessories.

# new technical clothing UPF

UPF+ technical hoodies that protect from the sun and provides maximum comfort. With breathable, quick-dry fabric, it keeps the body cool. Features an ergonomic hood for extra protection against sun and wind and a lightweight cut ensuring freedom of movement, ideal for long fishing days.

### NEW BIG YELLOWFINE

Big YELLOWFIN Line is a highly resistant and reliable nylon for trolling and big game fishing. With low memory and high smoothness, it withstands prolonged battles. Its reduced diameter increases reel capacity. Strong and durable in extreme conditions, it provides safety and performance for offshore big predator fishing.

**NEW**  
**BIG SHOT CAST**

This monofilament has been meticulously designed to offer an optimal balance between strength and elasticity, resulting in an exceptional ability to absorb pulls and maintain ideal tension with every cast. Not only is it strong, but its high knot strength makes it a versatile option for any type of fishing.

**SHIRO**

High performance Japanese monofilament specially designed and manufactured for fishermen who require fine lines to reach the maximum casting distance.

**SPIN WIND**

SPIN WIND is a monofilament line crafted using a revolutionary formula that blends different polymers, resulting in a line that is exceptionally resistant to abrasion and traction. Its ultra-smooth surface ensures longer casts, making it the ideal choice for discerning anglers who demand the best.

## KENDO X

This product passes through special strengthened processing, the molecular weight is extremely high, enhances the pulling force value 2 times as the ordinary nylon line. Simultaneously, surpasses high tensile strength, durable, it has been the best choice for those fisherman to use because it's ultra valve of ideally economy.

### TAIKO BOOM

High-performance Japanese monofilament, specially designed and manufactured for fishing techniques that require precise lines with low friction resistance, optimizing casting distance. Its advanced chemical composition and minimal water absorption ensure a line that maintains consistent and reliable performance in all conditions.

## TYPHOON ORATA

Typhoon ORATA Series, is a monofilament of high strength copolymer, specially designed for fishing large fishes, such as Sea Bream, Sea Bass, White Seabream. Its great resistance to abrasion, breakage and controlled elasticity makes it a great ally for fishing XL fish.

## NEW SURF TAPERED LINE MULTICOLOR

50m Tapered line. Provides a smooth transition from leader to main line diameter without knots, the lines goes through the rings with total fluidity, avoiding possible mess and achieving longer cast. It is also ideal for fishing scenarios with seaweed in suspension. Since there are no joining points, we will avoid the accumulation of seaweeds in the knots.

## FLUORINE LINE

FLUORINE fishing line is a new monofilament generation. It has an exceptional invisibility and strength features. It mixes the best characteristics of nylon and fluorocarbon. On the one hand, it has the knot resistant and tensile strength of nylon, and the underwater transparency and abrasion resistance of fluorocarbon. High recommended for tying hooks and rig assembly.

**150m Spool - 10 Units UMS**

## TYPHOON FLUOROCARBON

Fluorocarbon monofilament 100% high performance and quality. With a refraction degree very similar to water. Great resistance to knot, abrasion and UV rays. Ideal for making rigs, knot line and casting techniques.

## AMNESIA

This versatile line works great as a running line behind a shooting head for salmon and steelhead fishing. You can also use a small length as a butt section between a floating line and a leader. And the highly visible red color allows it to work as a built-in strike indicator when nymphing. Amnesia loses its monofilament memory when gives a good stretch.

**MINI-B (F)**

This lure is designed according to the size that can be attacked easily by the predators. It can be used for long casting fishing. When in the water surface, the gravity is in the front of the lure head, so it can produce quick shaking activities. This lure is a little minnow, it is suitable at the fish pond when fishing in the winter.

**NEW**  
**JIG NATUR**

Jig Natur stands out for its streamlined and realistic design, with holographic finishes that perfectly imitate baitfish. Its elongated shape allows long and precise casting, while its flat profile promotes a fast and vibrant fall, attracting predators even at medium and deep depths.

In action, it provides an erratic and very natural movement when worked with jerks or fast retrieves, ideal for targeting predators in both saltwater and freshwater. Perfect for species such as horse mackerel, sea bass, amberjack, mahi-mahi, or bottom predators.

		5 Units UMS

16

**NEW**  
**JIG CAMARAO**

Jig Camarao combines a compact, streamlined body with multicolored silicone skirts that add volume, vibration, and an irresistible underwater action. Its design reproduces the silhouette of baitfish, while the waving strips imitate tentacles in motion, generating flashes and pulsations that trigger predatory instincts.

In action, it stands out for its slow, balanced fall, capable of provoking strikes both on the drop and during retrieve. Works perfectly in slow jigging and jig casting, adapting to different depths and currents.

**NEW**  
**JIG FUNTAIL**

Jig Funtail features an elongated and streamlined body that allows long and precise casts, along with a fast, natural fall that imitates a distressed fish. It incorporates a spinner blade near the hook, generating extra flashes and vibrations that increase attraction, even in murky or low-light waters. Its action combines an erratic, flashing movement on retrieve with a fluttering effect during the fall, provoking strikes both vertically and in jig casting.

		5 Units UMS

**NEW**  
**JIG DART**

Jig Dart is characterized by its elongated and streamlined body, designed to achieve long casting distances and descend quickly to the strike zone. Its slim profile creates a highly attractive and natural fall, with flashes that mimic an injured baitfish. In action, it stands out for its erratic and vibrant movement during retrieve, capable of attracting predators both in shore jigging and vertical jigging from a boat. An ideal option for species such as sea bass, horse mackerel, bluefish, leerfish, or even small tunas.

**RBK**

**CHARLY**

Jig specially designed for fishing techniques such as jig-casting, spinning and Rock Fishing. Its structure presents an asymmetrical weight distribution, optimized to reach extremely long casting distances, making it ideal for situations that require precision and range. The effectiveness of the jig is maximized by the application of a twitching action, which mimics the erratic movements of wounded prey, attracting predators and increasing the chances of capture.

**HGR**

**INCHIKU**

The Inchiku stand out for their bright holographic colors that flash during fishing action, making them highly visible underwater and extremely attractive to predators. Their integrated pulpit design makes them even more effective. These lures are very versatile and have the ability to attract a wide variety of fish species, making them an invaluable asset to any angler. To get the most out of your Inchiku lures, use a steady retrieve with alternating jerks. This technique creates an up and down motion that activates the fish's predatory instincts.

**TENYA**

The Tenya technique was conceived and developed in Japan. The Tenya is a sinker on which you can usually hook a shrimp or strips of squid or cuttlefish. It consists of a plumbed head with a fixed hook where the bait is placed and an auxiliary hook that is placed in the head of the shrimp. The best technique is to imitate the natural movement of the bait. Slowly work the Tenya along the bottom with a linear retrieve, interrupted by occasional pauses. This realistic presentation effectively attracts fish accustomed to feeding on the seabed. Although Tenya fishing is often practiced from boats, it can also be successful from the shore.

**YUMIZUNO**

The Yumizuno is an iconic Japanese fishing lure, meticulously crafted for trolling. Its distinctive spoon-shaped design causes it to vibrate and shimmer enticingly in the water, attracting a wide variety of fish.

## SQUID SNAP

Unlike other swivels with safety pins, this one has the safety pin placed on one of the arms of one of the rings. Allow this to rotate on the turnstile to avoid messes. Very suitable for special setups for squid and cuttlefish. The clip allows the jibions to be exchanged quickly.

### NEW MACUTO APOLLO EGI

The Macuto Apollo EGI is designed to offer maximum organization and comfort on your fishing trips. Compact yet spacious, it features multiple front and side pockets to keep all your accessories, lure boxes, and tools well organized.

#### MAIN FEATURES

- Large main compartment for egi boxes, lures, and larger gear.
- Front zip pockets for easy access, ideal for lures, lines, and small accessories.
- External rings and carabiners to hang scissors, pliers, egi holders, or quick-use accessories.
- Adjustable, reinforced straps for durability and comfortable transport.
- Water- and abrasion-resistant fabric and zippers, perfect for demanding marine or river environments.
- Compact, ergonomic design, ideal for shore or boat fishing.

cm	26 x 20 x 10
CODE	<b>95363</b>

### NEW MOCHILA LUNAR SPIN

The Lunar Spin is the perfect choice for those seeking a compact, resistant, and practical bag for their fishing trips. Its ergonomic, modern design combines comfort with great organizational capacity.

#### MAIN FEATURES

- Spacious main compartment for lure boxes, lines, and accessories.
- Easy-access front zip pocket for small items.
- Reinforced front straps with rings, ideal for hanging tools like pliers or scissors.
- Side mesh pocket, perfect for bottles or additional accessories.
- Elastic side holder that can be used as a rod holder or to secure longer items.
- Durable zippers with ergonomic pullers for quick and secure access.
- Robust yet lightweight fabric, designed to withstand intensive use in marine or river environments.

cm	30 x 17 x 11
CODE	<b>96559</b>

# EXTREME BAGS

## NEW MOCHILA EAGLE DRIFT

The Macuto Eagle Drift combines modern style and functionality, designed for anglers seeking comfort and organization on every trip. Its compact and lightweight design offers durability and practicality without sacrificing storage space.

### MAIN FEATURES

- Large main compartment, perfect for lure boxes, lines, and tackle.
- Waterproof front zip pocket, ideal for quick-access items.
- Front straps with rings and hooks for tools, pliers, or carabiners.
- Side holder for bottles.
- Durable, easy-to-clean fabric, built to withstand demanding marine or river conditions.
- Adjustable, padded strap for comfort, even during long sessions.

### EXTREM TACTIC BACKPACK

cm	32 x 24 x 8
CODE	50892

This practical backpack with a modern design is made of water and tear resistant nylon, with reinforced seams and high resistance zippers. Ideal for anglers looking for a compact backpack to carry their fishing accessories neatly and comfortably.

#### COMPARTMENTS AND POCKETS

- **Main:** Spacious with internal dividers.
- **Upper Front:** Elastic drawstring and zipper system.
- **Lower Front:** Slots and attachment clip.
- **MOLLE Panel:** Front and sides for modular accessories.
- **Sides:** Both sides have additional compartments, bottle pocket and special tool pocket.
- With "D" rings for attaching tools and accessories.

#### REAR

- **Ergonomic Back Panel:** Padded with breathable material for comfort and ventilation, helping to reduce heat and sweat build-up.
- **Shoulder Straps:** Padded and adjustable, they provide comfort during prolonged transport and distribute weight evenly. The two straps can be zippered together, allowing the bag to be worn over one shoulder.
- **Top Handle:** Reinforced for easy manual transport.

### EXTREME SMART BACKPACK

Very resistant nylon backpack designed to carry all our fishing accessories. The interior consists of two main compartments separated by a quilted base fixed with velcro. The lower compartment opens at the front and consists of a space to store boxes of lures, reels, rigs, leads, etc. The top cover incorporates a transparent inner pocket with zipper. Upper front pocket with small departments for accessories, documentation or accessory envelopes. Padded adjustable straps. Padded base with non-slip rubber strips and padded trellis.

## PROTECTOR NET

Protect your fishing rods with the PROTECTOR NET cover. It is durable, strong, and offers excellent abrasion resistance, making it ideal for protecting your rods from scratches and other damage. Its design makes it easy to put on and take off, and it fits perfectly around all the rod's guides. The length is adjustable by rolling the opening up or down, making it perfect for storing and transporting rods without tangles. Made from nylon mesh, it is the perfect solution to keep your rods organized, protected, and in optimal condition.

### FUNDA EXTREM WORLD CUP

The Extreme World Cup case has been designed at the request of our Surfcasting ProStaffs. The concept was to create a high capacity competition case that could carry more than 6 surfcasting rods and also have the capacity to carry several hangers, rod holders or tripods.

It is made of nylon and PVC and has an interior compartment and another pocket on the outside. The interior has a padded band on each side to secure the rods. The exterior compartment is open and has an interior PVC reinforcement on the part so that it does not get punctured by the tips of hangers, holders, tripods, etc. It also has adjustable straps to secure all these accessories and keep them from moving. With carrying strap and double-wheel zipper.

cm	160 x 30 x 10
CODE	97749

**TRÍPODE TLX 60**

Max extension 120cm. Folded length 55cm.

CODE

## NEW SUPORT BAJOS PRO-T

The Kalikunnan aluminum rod rest provides order and convenience while fishing. It features a top tray for accessories, a perforated tray for sinkers, a comb-style rig holder, and a firm anchoring system with a 25 cm spike. Its adjustable telescopic structure, lightweight and resistant, ensures easy transport and practical use.

CODE  
**37107**

## NEW BIGSURF TROLLEY

The Big Surf Trolley Kalikunnan is the perfect ally to transport all your gear with comfort and durability.

### MAIN FEATURES

- Robust and durable design: high-quality metal structure, capable of withstanding heavy loads and resisting demanding environments.
- Large balloon-type all-terrain wheels: ideal for moving effortlessly over sand, gravel, or uneven ground.
- Large load capacity: perfect for carrying rods, coolers, tackle boxes, and fishing accessories.
- Comb-like side hangers: designed to hang rigs in a practical and organized way.
- Practical and functional: includes a folding tray for easy bait access and tackle organization.
- Anti-corrosion finish: resistant to marine environments, extending the trolley's service life.

## BIG FEET XXL TRAY

Aluminum trolley and stainless steel frame. High resistance and durability, to transport our fishing equipment. It has large special balloon wheels that will help us move easily through the sand on the beach. The segment by which we pull the trolley can be adjusted in height for a more comfortable transport and a more compact folding. In addition, it has a textured grip in EVA rubber for a more secure and comfortable grip. Some parts of the trolley are wrapped in EVA rubber tubes to protect them from bumps and scratches, and to prevent the sliding of our fishing equipment.

	CODE

## SMART LANDING NET

The SMART landing net from the Mythic series is made of high-strength aluminum alloy, providing both durability and lightweight design. Next to the head, there is a handle that allows you to lift the fish without having to pull on the handle. The mesh is rubberized to reduce snags with hooks and lures and to avoid damaging the fish scales. It is resistant to abrasion and deterioration from saltwater, ensuring a long lifespan. The telescopic handle features a system that allows for more compact folding, as well as an ergonomic, non-slip rubber grip.

## MASTER LANDING NET

The MASTER landing net punch of the Mythic series is designed with the highest technology and an ergonomic and robust design. It is made of high resistance aluminum alloy, which provides durability and lightness at the same time. Next to the head, it has a handle that allows the fish to be lifted without having to pull the handle and it is also foldable. The mesh is rubberized to reduce snagging with hooks and jigs and to avoid damaging the fish scales. It is resistant to abrasion and saltwater damage, ensuring a long service life. Telescopic and non-slip handle, which facilitates its extension and secure grip. The telescopic handle has a secure locking system to keep the landing net in position during the capture as well as a non-slip ergonomic rubber grip.

### HYDRO COOLER O<sub>2</sub>

cm	30 x 20 x 21
CODE	29239

The Hydrobag Cooler O<sub>2</sub> is the perfect solution to keep your catch cool and organized during your fishing trips. With an innovative and functional design, this cooler offers a combination of efficient insulation and practical storage. It includes a rigid inner bucket for easy cleaning. It is insulated to keep the interior cooler for longer, protecting your catch, bait or drinks from external heat. It has a pocket for oxygenator or accessories and another to keep your fishing tools organized and easily accessible. Equipped with an adjustable, heavy-duty strap for easy carrying and a high-quality zipper that ensures smooth opening and closing.

### HYDROBAG SEAT FOLD

cm	45 x 26 x 27
CODE	43080

Semi-rigid bag with rigid top to transport fishing material. It has a large inner pocket and a small Mesh pocket on the front plus a special pocket for scissors or pliers.

The lid closes with zipper in addition to a Velcro closure in case we do not want to be opening and closing the zipper every time we take something from the inside pocket.

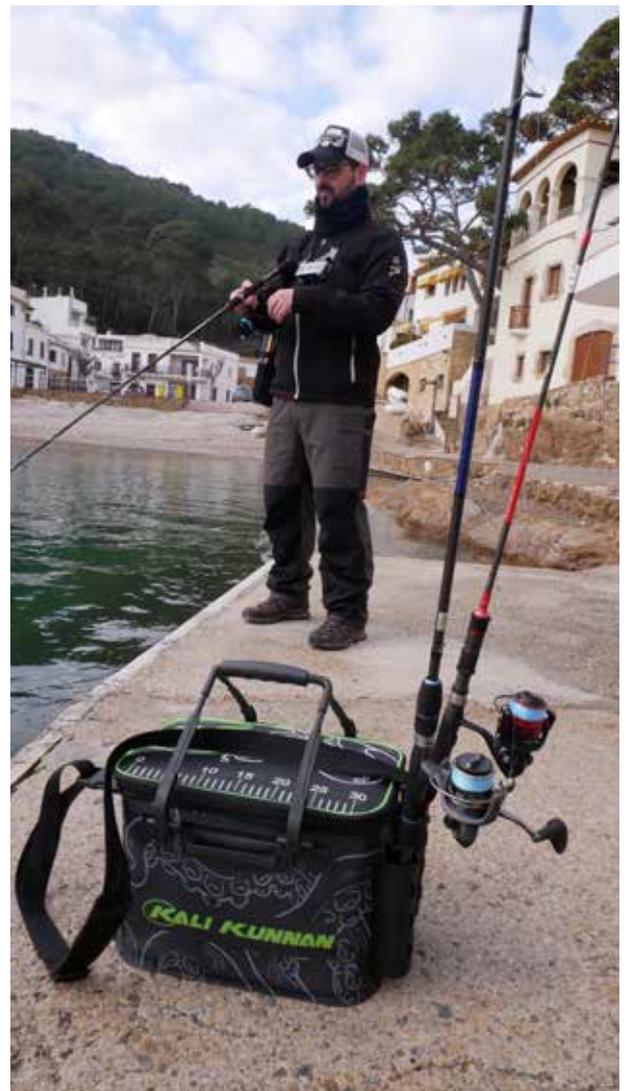

In one of the sides it has two rod holders that allow to carry the rods while we move or leave the rod for example to change the lure, make a knot, etc... It has a shoulder strap and handles to transport it comfortably.

### CUBO CON REJILLA Y CABO

Folding mesh bucket. Lets keep the fish in water. Top cover opening. Om cape with winder.

KALI KUNNAN

**NEW**  
**HYDRO BAIT AIR**

cm	32 x 22 x 25
CODE	89467

The Hidro Bait Air keeps live bait in perfect condition with a sturdy rigid container featuring a double-zipper lid and a central opening that allows easy access without opening the whole lid. It allows connection to an external oxygenator, includes an adjustable strap for comfortable transport, and has a compact, lightweight design ideal for boat or shore use.

**NEW**  
**HYDRO TRAP**

cm	32 x 13,5 x 18
CODE	92671

The Hidro Trap is a practical and lightweight hydro bag for bait and accessories. Its rigid tank with zipper lid and central opening allows easy bait access without fully opening the lid. It includes a removable inner grid and a front zipper pocket for tools, an adjustable strap, and a compact, durable design that organizes gear with total convenience.

**HYDROBAG TROLLEY**

Super practical Folding Station attached to a trolley pushcart with retractable handle to transport the fishing material with minimum effort. It has a very spacious interior compartment, two side pockets with holes in the base to get rid of water or sand and a Mesh-type bag on the front. On the front, just below the handle has two hooks to hang accessories. You can transport it like a pushcart, hanging the two high resistance handles or by the shoulder strap.
